Work Experience

📅 Feb 2020 - Jan 2021   📍 Quito, Ecuador
Creative & Data Specialist
Loop Ecuador

Managed over 750 product listings for a major supermarket e-commerce site. Handled image editing, pricing, categorization, and ensured consistent branding and optimized content structure.

📅 Jan 2021 - Sep 2021   📍 Quito, Ecuador
Web Designer & Developer
Cava Ecuador

Designed and launched a full e-commerce responsive website for an online liquor store using WordPress and Elementor. Handled complete branding, UI and product data setup.

📅 Oct 2021 - Jan 2023   📍 Quito, Ecuador
Web Designer & Developer
Patio Smart Ecuador

Built a classified ads platform for new and used cars in Ecuador using WordPress, WooCommerce, and Elementor. Led branding, UX design, and full implementation for both desktop and mobile.

📅 Jan 2023 - Now   📍 Quito, Ecuador
Full-Stack Developer
Many Cars Ecuador

Rebuilt & Rebrand the classified ads platform from WordPress into a full-stack web app using Next.js, React, Node.js, and MongoDB. Developed custom features like user accounts, admin dashboard, payments, APIs from scratch and SEO-optimized SSR. Currently maintaining it and building the mobile version with React Native.

📅 Jun 2025 - Now   📍 Quito, Ecuador
Freelance Web Developer
Autonomous Developer

Started my Freelance journey by delivering a full WordPress e-commerce site for a local business, including branding, product structuring, and deployment. Now seeking to join a global team as a full-time Full Stack Developer.

Education

📅 Sep 2002 - Jun 2016   📍 Quito, Ecuador
High School Diploma
Colegio Alemán Quito

Completed my education at one of Ecuador's top private schools, with a strong emphasis on German and English instruction.

📅 Sep 2017 - Feb 2019   📍 Quito, Ecuador
Automotive Engineer
Universidad Internacional del Ecuador (UIDE)

Completed 4 semesters of Automotive Engineering at a private university. Due to the COVID-19 pandemic, I shifted paths and began my journey into software development.
